## Who We Are

Nondera Energy Services is a dynamic oil and gas services company that provides oilfield services, operations support services, Engineering services, Inspection services to clients in the energy sector.

The services we offer focus on safety, innovation, and reliability. Leveraging our skilled people, innovative solutions, and strong governance processes, we help clients achieve safer, smarter, and more efficient energy operations.

Headquartered in Lagos and with presence in USA, Warri, Abuja, Benin, and Port Harcourt, Nondera partners with OEMs to provide cost-effective, high-quality, and timely solutions. ISO 9001:2015 certified, Nondera is committed to delivering safe, smart, and value-creating solutions across the Nigerian energy sector.

### Why work with us!

Superior supply chain management techniques

Agile project management practices

Attention to detail

High quality, cost-effective and on-time professional service delivery

Adherence to international best practices

Proper deployment of good corporate governance

Sound risk management practices

# Vision & Mission

## Our Vision

“We deliver safe, smart and reliable engineering, procurement and inspection services across the energy sector.”

## Our Mission

“We provide engineering, procurement and inspection services through skilled people, innovative solutions, disciplined processes and strong governance to enable safer, smarter, and more efficient energy operations.”

## Our Core Values

A clear breakdown of our core values that we bring to every partnership

### Safety

We are uncompromising and proactive in our commitment to the health and well-being of our people, clients, and communities.

### Customer Focus

We place the customer at the center of everything we do, ensuring that their needs are met and exceeded.

### Audacity

We boldly embrace innovative ideas and fearless creativity in every effort, striving to achieve outstanding results with responsibility and care.

### Integrity

We act with honesty, transparency, and ethical conviction in every decision and interaction.

### Excellence

We pursue the highest standards in quality, professionalism, leadership and continuous improvement in everything we do.

### Respect for People

We value and empower our people, fostering an open, inclusive and collaborative environment built on trust and dignity.

# Our Services

## Oilfield Services

We offer specialized solutions in geophysical surveys, drilling support, cementing, and mud logging, ensuring successful and efficient well delivery.

## Engineering Services

Our team delivers telecommunications, metering, and instrumentation & control systems, providing reliable and innovative technologies that enhance performance.

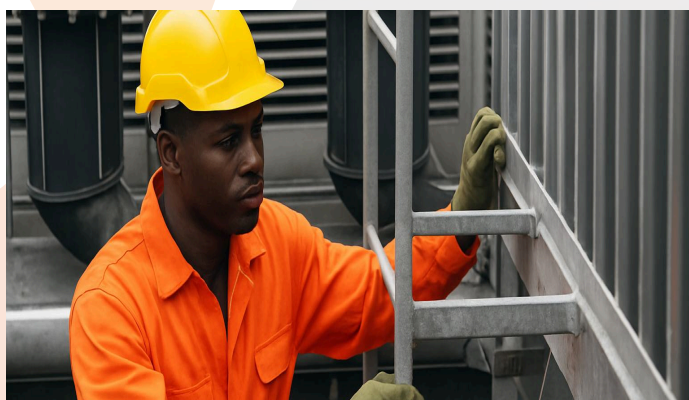

## Renewable Energy Services

We are committed to delivering innovative renewable energy solutions that empower businesses, industries, institutions, and communities with efficient, and sustainable power.

## Operations Support Services

Through manpower supply, procurement, and logistics, we help our clients maintain seamless operations while optimizing cost and time.

## Inspection Services

We protect assets and operations with HVAC and comprehensive inspection services, upholding the highest standards of safety, compliance, and quality.

# Oilfield Services

Our oilfield services is inclusive of, but not limited to Geophysical services, drilling services and well services

We provide a comprehensive range of services, including wellbore cleaning and pumping, liner hanger and accessories, cementing and casing operations, surface well testing, mud logging, and advanced drilling technologies.

## SERVICE AREAS

### Coiled tubing and pumping

Our services support a wide range of well intervention and maintenance activities, including well cleanouts, nitrogen lifting, acid stimulation, fluid displacement, and scale or debris removal.

### Slickline Services

Our slickline services support mechanical well operations such as gauge cutting, setting and retrieving downhole tools, valve manipulation, depth correlation, and well diagnostics.

### E-wireline logging services

Our logging operations support formation evaluation, well integrity assessment, and production monitoring through high-quality data acquisition and interpretation.

### Cementing Services

Nondera Energy Services delivers high-quality cementing solutions critical to well integrity, zonal isolation, and long-term production performance. Our cementing services cover primary cementing, remedial cementing, squeeze jobs, and plug and abandonment operations.

### Casing and Tubing Services

Our scope includes casing and tubing running, handling, inspection coordination, and accessories management, executed in line with industry best practices and client specifications.

### Seismic data acquisition

Our seismic services provide clients with the critical geological insights required to reduce uncertainty, optimize field development, and maximize asset value.

# Operations Support Services

## Procurement and Logistics

Our team manages the full procurement cycle, from sourcing to delivery, covering onshore and offshore operations with precision and integrity. Through established relationships with reputable Original Equipment Manufacturers (OEMs) and global supply-chain partners, we provide clients access to high-performance products while maintaining ethical and transparent business practices.

## SERVICE AREAS

- Pipeline construction supplies
- Telecommunication installation
- Instrumentation and control
- ICT equipment
- Electrical supplies
- Surveillance equipment
- Drilling equipment supplies
- Mechanical supplies
- Pumps and meters

## Manpower Supply Services

Our manpower supply services cover the entire staffing lifecycle, from recruitment and selection to mobilization, welfare, and ongoing support. Through our extensive industry experience, we have built a network of qualified professionals across diverse disciplines within the oil and gas value chain.

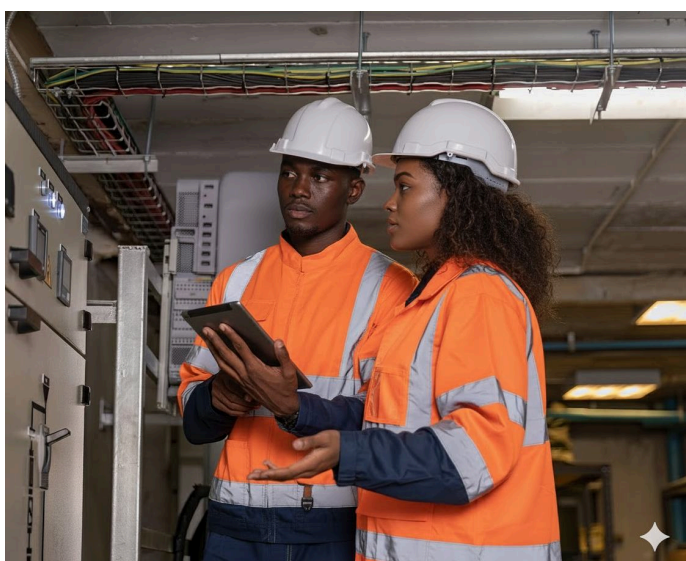

# Engineering Services

At Nondera Energy Services, our Engineering Services division delivers comprehensive technical solutions designed for the challenging environments of offshore, onshore, LNG and pipeline oil & gas operations.

We provide a comprehensive range of engineering, instrumentation, control, and electrical services that support both onshore and offshore projects.

## Instrumentation and Control

### SERVICE AREAS

Gas Analytics Equipment

Temperature Monitoring Instrumentation

Pressure Instrumentation

Level Sensors

Well Control and Communication

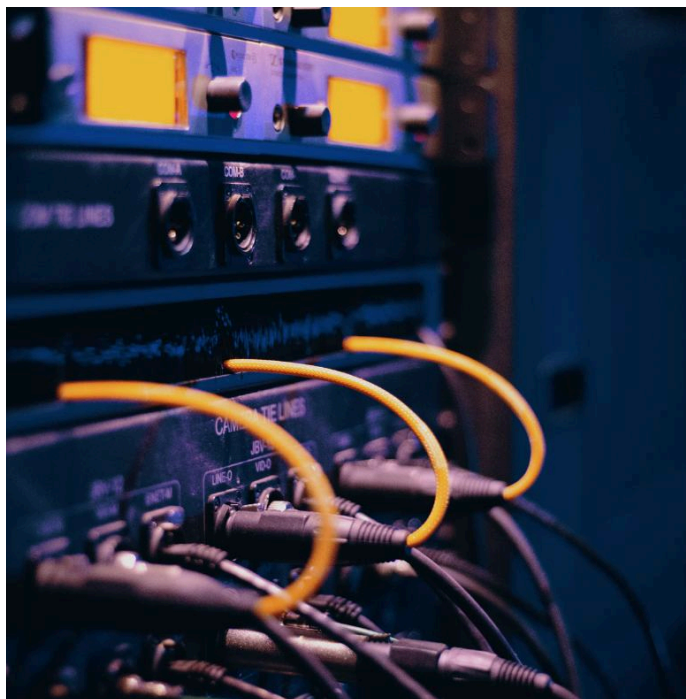

## Metering and Calibration

- Supply and Installation of Flow Meters
- Calibration and Verification of metering systems to maintain regulatory and fiscal accuracy.
- Maintenance and Troubleshooting services to minimize downtime and enhance equipment lifespan.
- Technical Consulting and Metering Audits to evaluate performance and compliance with local and international standards.

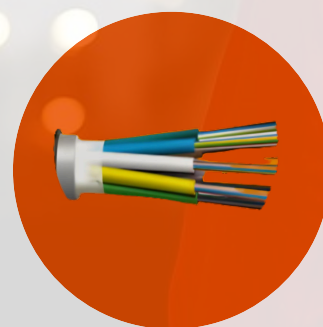

# Engineering Services

## Telecommunications Services

- Satellite communication solutions (for remote, offshore or pipeline sites)
- UHF/VHF/Tetra radio networks for voice communication.
- CCTV and video surveillance systems
- Switches, VoIP, Internet solutions (data/voice integration)
- Radio system infrastructure
- Optic Fibre Cables installations
- Flir Systems.

# Renewable Energy Services

## Solar Energy Services

As the global energy landscape continues to evolve, Nondera is committed to delivering innovative renewable energy solutions that empower businesses, industries, institutions, and communities with dependable, efficient, and environmentally responsible power.

Building on our extensive engineering expertise, we provide end-to-end renewable energy services—from design and engineering to procurement, installation, commissioning, and long-term maintenance. Our solutions are tailored to reduce energy costs, improve operational efficiency, and ensure uninterrupted power for our clients.

### what we offer:

#### Solar Photovoltaic System

We design and deploy high-performance solar power systems for residential, commercial, industrial, and utility scale applications.

#### Battery Energy Storage Systems

We provide advanced lithium battery storage solutions that enhance power reliability, improve energy management, and ensure business continuity.

#### Hybrid Power Solutions

Our hybrid energy systems intelligently combine solar energy, battery storage, generators, and utility power to deliver continuous electricity while minimizing fuel consumption and operating costs.

#### Operations & Maintenance

We provide comprehensive maintenance services to ensure every energy system continues operating at peak performance throughout its lifecycle.

#### Energy Audits & Consultancy

We help organizations understand their energy consumption and identify opportunities for efficiency improvements and cost savings.

#### Engineering, Procurement & Construction

From concept development to project completion, Nondera delivers complete EPC services for renewable energy projects.

# Inspection Services

## Inspection Services

We provide complete inspection services including:

- Pre-Commissioning
- Environmental Tests
- Sound Readings
- Balancing and Regulation
- Electrical Testing
- Rapid Response Shut Down Testing
- Pressure Regimes Airflow Direction Checks
- Clean Room Testing
- Temperature Mapping
- BMS/Controls
- Commissioning and Testing
- TR and LEV Testing
- Demonstrations
- Preparation of Detailed Reports

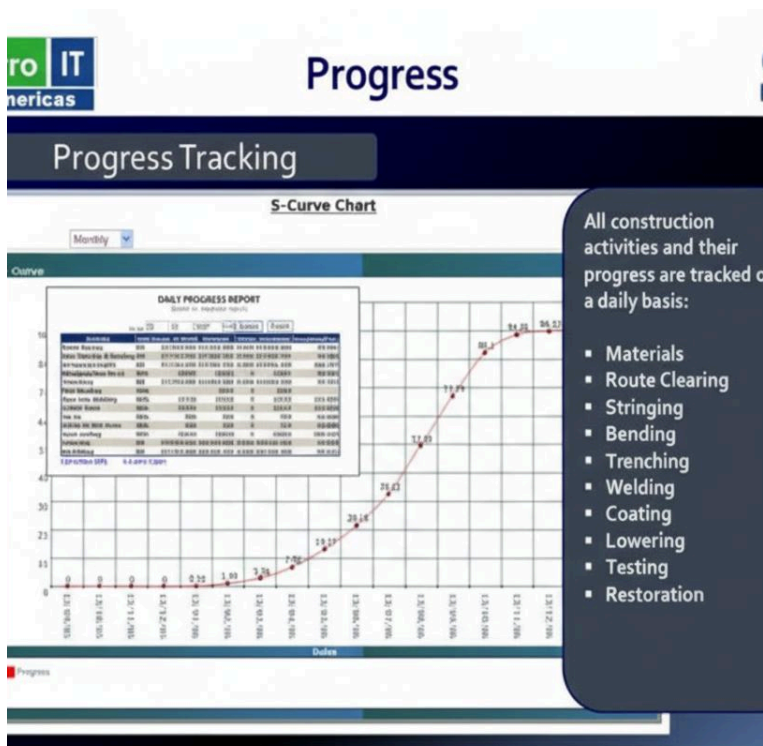

# Inspection Services

## Pipeline Tracking Solutions

Nondera Energy Services in partnership with Petro IT UAE, delivers PipetrakIT, a pipeline data management system that allows owners, operators and engineering firms to track, manage and report real-time data throughout the entire pipeline construction process.

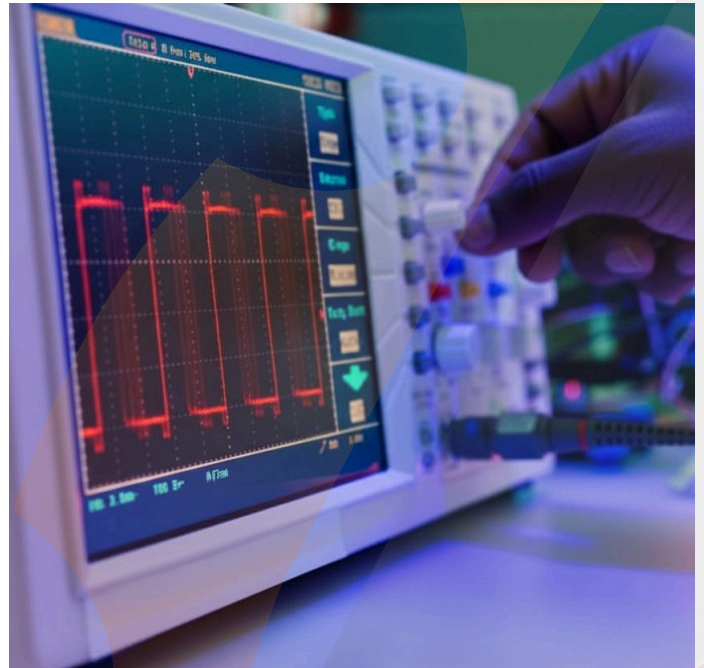

### Features:

- Real-time Material Tracking (MTS) right from Pipe mill
- Construction Management System (CMS)
- Web GIS (database) Visualization
- Data Process Workflow
- Project Completions Management
- Electronic Document Database management
- PipetrakMobile App for Field Data Capture for Android & iOS

# Inspection Services

## TR Integrity and PFEER Testing

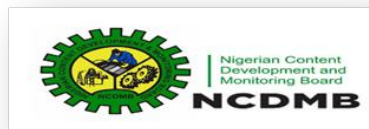

To guarantee our clients' full compliance with SI 1995 No 743, the Offshore Installations (Prevention of Fire and Explosion, and Emergency Response) Regulations 1995, our specialists have extensive experience in the evaluation and testing of the porosity of TR's against the infiltration of smoke, fume and noxious gas. We will conduct the required testing according to COSHH procedures to meet the relevant regulations and each test is adapted to suit individual situations:

- PFEER, Smoke & Gas Ingress, TR, TSR Integrity Testing
- Definitions of TR Boundary
- Unique Acoustic Service for noise control
- Pre-test surveys
- Testing and Verification
- Investigation of leakage paths
- Thermal imaging
- Smoke testing
- Repairs to or replacement of modular doors
- Repair to or upgrades of HVAC systems and components
- Develop and provide a maintenance plan to minimize future problems
- Hand over a full valid test-report

# Our Partners

## Regulatory Partners

## Technical Partners

# Our Clients

## Our Clients

# Our Experiences

We've highlighted a few of our many experiences to give our clients a feel of our capacity.

## 2021

### ● EGINA FPSO

CLIENT: Total Upstream Nigeria Limited  
PROJECT: Supply of piping and Mechanical materials  
LOCATION: OML 130, 130 km off Nigeria  
PERIOD: 2021

### ● OTAKIKPO WELL 2 and 3

CLIENT: Green Energy/LekOil JV  
PROJECT: Provision of Wellhead maintenance services  
LOCATION: Otakikpo, Andonni, Port Harcourt, Nigeria  
PERIOD: 2021

### ● TECHNICAL ASSISTANCE SERVICES

CLIENT: Total Energies  
PROJECT: Provision of Joint Venture (JV) Technical Advisory and Operational Support Services  
LOCATION: Egina FPSO Port Harcourt  
PERIOD: 2021

### ● ELECTRICAL EQUIPMENT

CLIENT: Dangote  
PROJECT: Supply of OEM Compliant Electrical Equipment Supporting Operational Continuity  
LOCATION: Lagos, Nigeria  
PERIOD: 2021

### ● PIPELINE TRACKING SOFTWARE

CLIENT: Oilserv  
PROJECT: Provision of Pipeline Tracking and Integrity Management Software for Oil & Gas Assets  
LOCATION: Nigeria  
PERIOD: 2021

## Our Experiences

We've highlighted a few of our many experiences to give our clients a feel of our capacity.

### 2022

#### ● IKM MEKANISKE Spares

CLIENT: Shell Petroleum Development Company  
PROJECT: OEM Procurement of IKM Mekaniske Spare Parts  
LOCATION: Bonga FPSO, Nigeria  
PERIOD: 2022

#### ● VALVE MAINTENANCE

CLIENT: Nigerian petroleum Development Company  
PROJECT: Maintenance of Valves in Ogini Flowstation and Compressor Station  
LOCATION: OML 26, Warri, Nigeria  
PERIOD: 2022

#### ● INSTRUMENTATION MATERIALS

CLIENT: Aradel  
PROJECT: Instrumentation Materials for NDRE 2022  
LOCATION: Port Harcourt, Nigeria  
PERIOD: 2022

#### ● IKUSI DANFOSS BATTERY

CLIENT: Ponticelli Nigeria Limited  
PROJECT: Procurement and Supply of OEM IKUSI–Danfoss Battery Systems  
LOCATION: Port Harcourt, Nigeria  
PERIOD: 2022

#### ● AKK PIPELINE PROJECT

CLIENT: Oilserv Limited | Brentex CPP  
PROJECT: Implementation of Pipetracking System for AKK Pipeline  
LOCATION: Nigeria  
PERIOD: 2022

# Our Experiences

We've highlighted a few of our many experiences to give our clients a feel of our capacity.

## 2023

### CHECK VALVES

CLIENT: Netcodietsmann  
PROJECT: Supply of API-Compliant Check Valves for Industrial and Oil & Gas Applications  
LOCATION: Port Harcourt, Nigeria  
PERIOD: 2023

### PD METER FMC TECH

CLIENT: Aradel  
PROJECT: Supply of Standard Inner Mechanisms for FMC Technologies Positive Displacement Meters  
LOCATION: Port Harcourt, Nigeria  
PERIOD: 2023

### GENERATOR SPARES

CLIENT: NPDC  
PROJECT: Procurement and supply of generator spares and other materials at Jones Creek Flow Station  
LOCATION: Warri, Nigeria  
PERIOD: 2023

### TACTICAL EQUIPMENT

CLIENT: Green Energy  
PROJECT: Procurement & Supply of Tactical Equipment  
LOCATION: Port Harcourt, Nigeria  
PERIOD: 2023

### VALVES SUPPLY

CLIENT: Shell Petroleum Development Company  
PROJECT: Provision of Valves for Industrial Applications  
LOCATION: Nigeria  
PERIOD: 2023

# Our Experiences

We've highlighted a few of our many experiences to give our clients a feel of our capacity.

## 2024

### ● MUDLOGGING SERVICES

CLIENT: NNPC E&P Limited  
PROJECT: Supply of mudlogging services for OML 34 drilling and completion of three well  
LOCATION: OML 34, Ughelli east field, Nigeria  
PERIOD: 2024

### ● MITUTOYO DIAL INDICATOR

CLIENT: Dangote  
PROJECT: Provision of Mitutoyo Dial Indicators for Precision Measurement and Quality Assurance  
LOCATION: Lagos, Nigeria  
PERIOD: 2024

### ● BITZER SPARES

CLIENT: Century Energy  
PROJECT: Procurement and Supply of BITZER Spares for Industrial Refrigeration and Mechanical Systems  
LOCATION: Port Harcourt, Nigeria  
PERIOD: 2024

### ● PIPE INSULATION MATERIALS

CLIENT: Aradel  
PROJECT: Pipe insulation materials for MDO and crude tank integration project  
LOCATION: Port Harcourt, Nigeria  
PERIOD: 2024

### ● PILOT VALVES

CLIENT: Netcodietsmann  
PROJECT: Supply of Solenoid Pilot Valves for Process Control and Operational Reliability  
LOCATION: Port Harcourt, Nigeria  
PERIOD: 2024

## Our Experiences

We've highlighted a few of our many experiences to give our clients a feel of our capacity.

### 2025

#### ● LABORATORY EQUIPMENT

CLIENT: Aradel  
PROJECT: Procurement and Installation of Laboratory Equipment for Process Testing and Material Analysis  
LOCATION: Port Harcourt, Nigeria  
PERIOD: 2025

#### ● CONDENSATE RECOVERY TANK

CLIENT: Netcodietsmann  
PROJECT: Procurement and Supply of ACC Condensate Recovery Tanks to Support Process Optimization and Energy Recovery  
LOCATION: Port Harcourt, Nigeria  
PERIOD: 2025

#### ● MECHANICAL SPARES

CLIENT: Shell Petroleum Development Company  
PROJECT: Procurement and Supply of Spares for Mechanical Systems  
LOCATION: Port Harcourt, Nigeria  
PERIOD: 2025

#### ● REFINERY MAINTENANCE SPARES

CLIENT: Aradel  
PROJECT: Refinery Maintenance Spares for Instrumentation, Control, and Process Reliability  
LOCATION: Port Harcourt, Nigeria  
PERIOD: 2025

#### ● METHANE WATER MIX GAS BOTTLE

CLIENT: Aradel  
PROJECT: Supply of Methane-Water Mix Gas Bottles Compliant with Industry Safety Standards  
LOCATION: Port Harcourt, Nigeria  
PERIOD: 2025

## **SAFETY, HEALTH, AND ENVIRONMENTAL POLICY**

### **SAFETY POLICY STATEMENT**

In the development of its operations, the basic and continuing Policy of NONDERA ENERGY SERVICES LIMITED is that of total support for the Health and Safety of its people and of others who may be affected by these operations, and of using its best to minimize negative effects on the environment where these operations are carried out. NONDERA ENERGY SERVICES LIMITED personnel assigned to work with clients shall meet the standards of Health, Safety and Environmental Protection imposed by local legislation and client's provisions. To meet these aims, Nondera Energy Services Limited is committed to:

- Establish the practice of complying with the significant local rules and government laws regarding Health, Safety and Environmental Protection at any place where NONDERA ENERGY SERVICES LIMITED operations are performed.
- Providing the knowledge of all current legislation and other necessary information, specific for local work areas, to all its personnel/specialists involved in these areas, and to ensuring that all this personnel have acquired the full knowledge of their responsibilities concerning Health, Safety and Environmental Protection and take action correspondingly.
- Providing incentives aimed at encouraging its personnel to be always active in avoidance of accidents, by observing procedural Health, Safety and Environment provisions, and by taking immediate corrective actions in case of non-conformities.
- Providing continuous training on Health, Safety and Environment issues to its personnel, aimed at emphasizing the importance of compliance with the above policy at their work site.
- The Management of NONDERA ENERGY SERVICES LIMITED is directly responsible for the achievement of the Health, Safety and Environment policy. They are to review periodically and on a need for basis the effectiveness of the subordinated staff concerned with ensuring of its HSE commitments.

NONDERA ENERGY SERVICES LIMITED has an appointed Safety Officer as Management's Representative to ensure the implementation and maintenance of Safety-at-Work Policy.

**CHARLES OMEH**  
Chief Executive Officer  
March 20, 2020
