Nondera Energy

Nondera Energy Services is a dynamic indigenous oil and gas services company with offices in Lagos, Port Harcourt, and Atlanta, USA. Incorporated in 2015, we have consistently delivered innovative solutions to enhance exploration, production, refining, transportation and marketing activities of clients in the oil and gas industry. Our scalable and integrated

resources and services are targeted to provide solutions through the entire lifecycle of our client's assets- offshore or onshore. We maintain a sustainable competitive advantage in the industry, strategically positioning us to achieve our vision "to be the leading provider of integrated energy solutions in Africa". We achieve these by:

Superior supply chain management techniques

Agile project management practices

Attention to detail

High quality, cost-effective and on-time professional service delivery

Adherence to international best practices

Proper deployment of good corporate governance

Sound risk management practices

OUR VISION

To be the leading provider of integrated energy solutions in Africa.

OUR MISSION

To go above and beyond, in creating superior value for our stakeholders.

OUR CORE VALUES

Our shared values drive our corporate culture, which is evident in our dealings with stakeholders:

CUSTOMER CENTRICITY

We are fully committed to our customers. We strive to exceed expectations always.

SAFETY

We are uncompromising in our commitment to the health and safety of our employees, clients, and communities.

INTEGRITY

We are deeply committed to the issues of Ethics and Integrity. Our core values emphasize and demonstrate trust, reliability and openness.

RESPECT FOR PEOPLE

Our people are our most important assets, and we enable and encourage their development. We recognize and reward teamwork and individual performance.

PROFESSIONALISM

We incorporate positive attitude, competence, cooperation and professionalism at all levels of interaction with all stakeholders. Our commitment to professionalism uniquely positions us to undertake large scale global and local projects.

AUDACITY

We set and achieve ambitious goals, think big, reject mediocrity and seek innovative breakthroughs.

EXCELLENCE

We strive to deliver the highest quality and value possible in every aspect of our business and approach every challenge with a determination to succeed.

CHARLES C. OMEH

Our team is headed by Charles C. Omeh, a dynamic and charismatic leader with a highly adaptable and professional approach to company management and customer relationship management. With over 20 years of management experience, Charles is reputed for setting high expectations and excels at executing organizational goals. Charles' strengths lie in building and managing organizations; strategic relationship management of clients, vendors, regulators and other stakeholders; promoting individual/organizational goal attainment and identifying and executing growth opportunities.

FADEKE A. OMEH

Fadeke is a seasoned business leader with over 20 years' management experience working for world class companies in Nigeria and abroad. A proven leader, capable of blending the big picture with tactical considerations, she is known for her collaborative leadership style, proactive approach, and keen ability to effectively translate complex operational concepts into tangible action plans. Over the years she had the opportunity to provide management consulting services to clients in the oil and Gas industry in Nigeria and British Petroleum in the UK. She excels at inspiring, building trust, and achieving record growth.

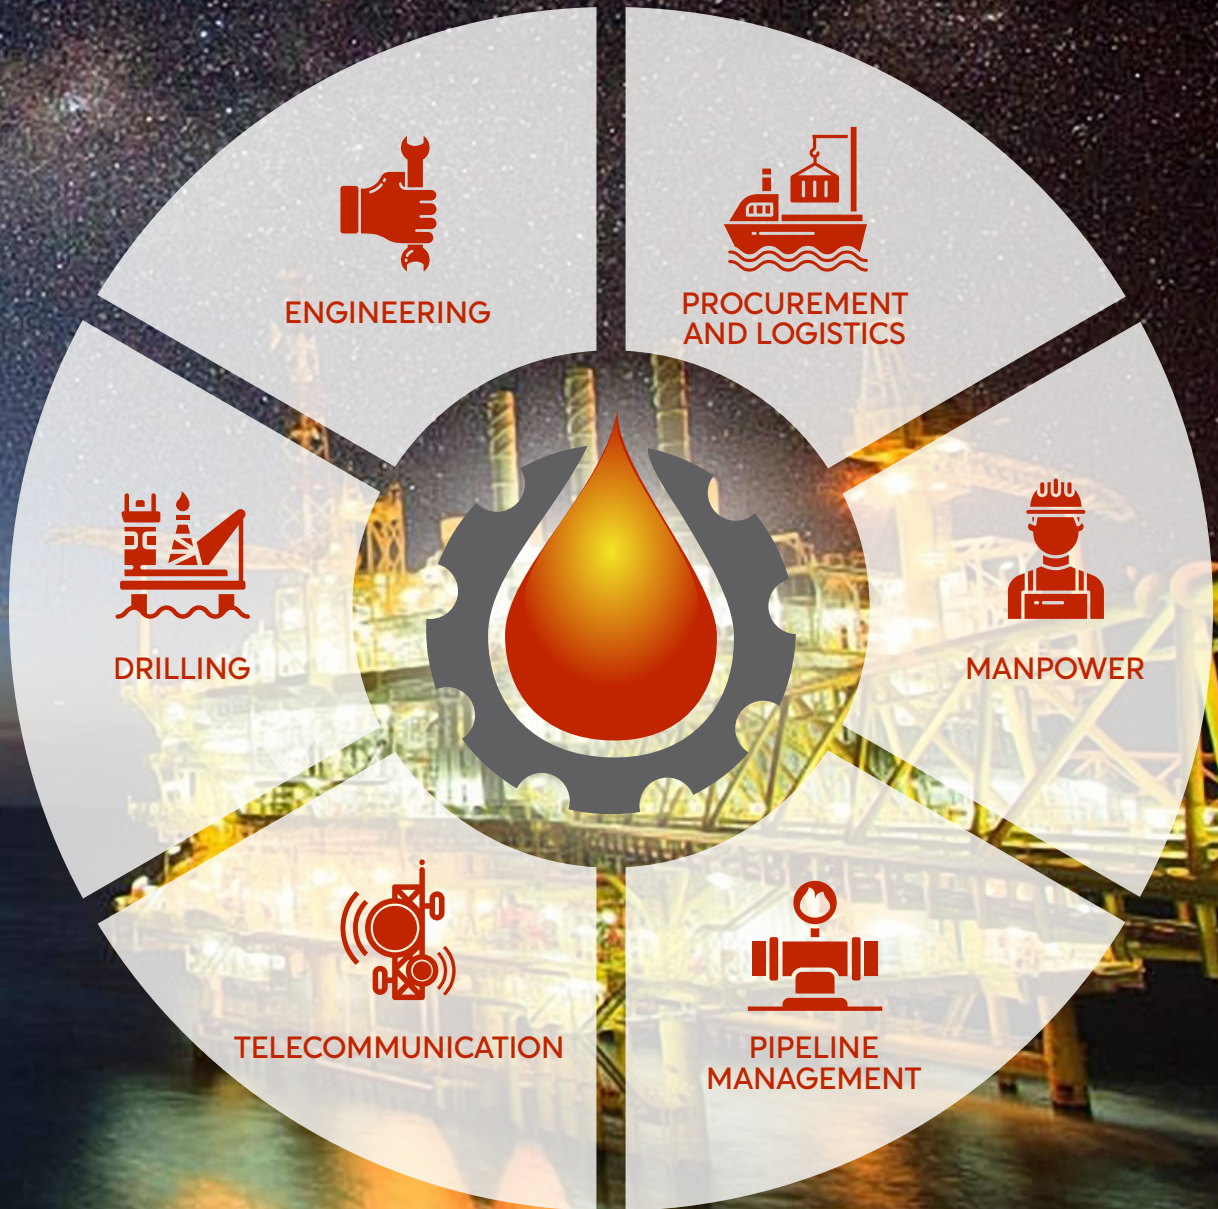

NNAMDI IGWILOH B.

Nnamdi has over 20 years' experience in the telecommunications industry. He has designed, deployed and managed cellular networks in all parts of Africa. He is the founder of Connig Technoserve Limited: a dynamic telecommunications and information technology services provider with offices in Nigeria, Republic of Benin, Ghana and Ivory Coast. Nnamdi's major strengths lie in building and managing organizations, seeking growth opportunities for the organization, managing relationships with Operators, vendors, regulators and investors, setting corporate strategy and control – financial, operations, governance, Driving the team to meet company objectives.

Nondera Energy Services is led by a dynamic and innovative management team.

FEMI BANJO

Femi Banjo stands at the forefront as a management professional with over 20 years' experience across major industries. Adept with competencies in management, contracts administration, business development and operation; he has built a reputation for transforming businesses over the years locally and internationally prominently in the Oil and Gas industry. A sector where he rose to become the Country Manager for NES Global Talent's Nigeria operation before venturing to incorporate Sellafield Energy in 2010. He is currently the Managing Director/CEO of Sellafield Energy, a leading provider of resources and services to Nigeria's energy sectors.

INSTRUMENTATION & CONTROL SERVICES

In partnership with Bourdon Instruments GMBH, we provide process control optimization services via Instrumentation, control and electrical services. Our scalable and integrated resources and services are targeted to provide solutions through the entire lifecycle of our client's assets- offshore or onshore.

We leverage on years of systems integration expertise as well as outstanding OEM relationships including YDB LLP to offer turnkey solutions for all instrumentation, control & electrical needs of our clients. Our list of product offerings are:

VALVES

TEMPERATURE INSTRUMENTATION & ACCESSORIES

PRESSURE INSTRUMENTATION & ACCESSORIES

FLOW METERS

INSTRUMENTATION AND CONTROL ENGINEERING SERVICES

Our experienced personnel can also provide support with specifying the instrumentation equipment that meets the operational needs of client's facility. Our full line of instrumentation and control engineering services include:

Control Systems Engineering & Design Services

SCADA System Integration with Third Party System

Instrumentation, Control & Electrical Construction Services

Installation, Start-Up & Commissioning Services

TELECOMMUNICATIONS SERVICES

In strategic partnerships with Cisco, Motorola and other local partners, Nondera Energy has built a specialized telecommunications business unit dedicated to the needs of the offshore, onshore, LNG, refining, petrochemicals and pipeline market segments.

We have built broad experience within computer networking, IT Infrastructure deployment, telecom engineering, integration and management, computer and IT supplies. We specialize in the supply, installation, commissioning, operation and maintenance of:

- Emergency Communication systems
- UHF/VHF Tetra Network
- Switches, VOIP, Internet
- CCTV
- Radio Systems
- Satellite Solutions
- Data Solutions
- Optic Fibre Cables

Switches, VOIP, Internet

Fibre Optic Termination

Installation, Repair and refurbishment of cable assemblies

PIPELINE TRACKING SOLUTION

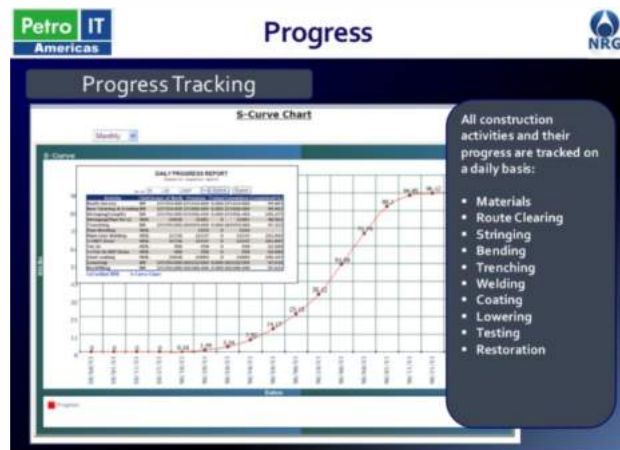

Pipetrak IT 

Nondera Energy Services in partnership with Petro IT, UAE delivers Pipetrak IT, a pipeline data management system that allows owners, operators and engineering firms to track, manage and report real-time data throughout the entire pipeline construction process.

Using the latest in web and mobile technologies, Pipetrak IT provides traceability of materials, inspection and construction quality, capturing data and documentation that assists in project management and meets all compliance reporting requirements.

FEATURES

- Real-time Material Tracking (MTS) right from Pipe mill
- Construction Management System (CMS)
- Web GIS (database) Visualization
- Data Process Workflow
- Project Completions Management
- Electronic Document Database management
- Pipetrak Mobile App for Field Data Capture for Android & iOS

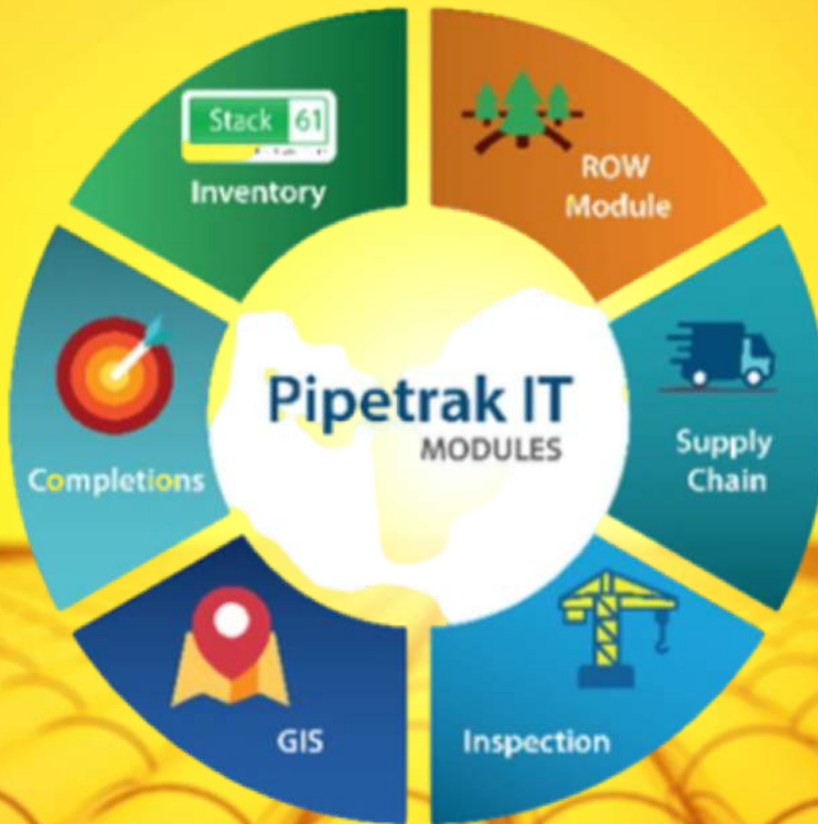

DEPLOYMENT

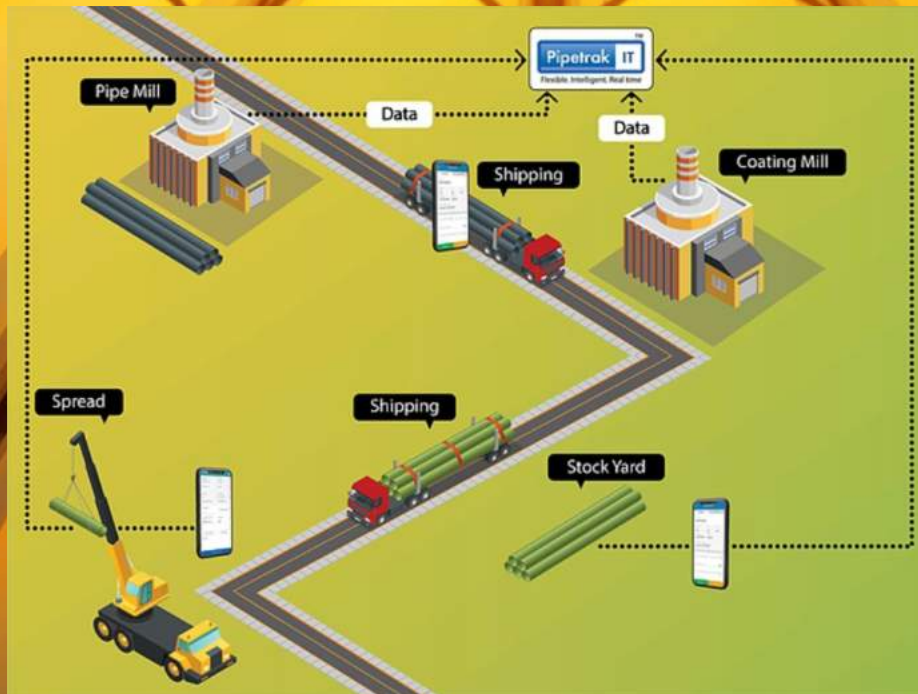

Pipetrak IT has been successfully implemented in over 26,000km of pipeline globally. some of the major footprint projects are as follows:

- Trans Anatolian Pipeline- TANAP, Turkey (1,841 Km, 56")
- Trans Adriatic Pipeline- TAP, Europe (878 Km, 48")
- Nord-Stream 2 , Russia (Km,48")
- Atlantic Coast Pipeline, USA (905 Km, 42")
- Atlantic Sunrise Pipeline, USA (300 Km, 42")
- Khazzan (Ghazeer), BP Oman (700 Km, Various Size)

MODULES

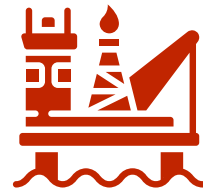

DATA INTEGRITY MANAGEMENT

DRILLING SERVICES

Nondera Energy Services operates technical and commercial partnerships in delivering turnkey oilfield projects as well as providing cutting-edge drilling tools to the oil and gas industry.

We specialise in the provision of heavy and light well intervention services.

SERVICE AREAS

- Coiled Tubing and Pumping Services
- Slickline Services
- E-Wireline Logging Services
- Cementing Services
- Casing and Tubing Running Services

WHAT WE OFFER

- Cutting-edge exploration technology
- Cost-Effective Solutions
- Commitment to Safety
- Drilling Technical Service Personnel
- Quality Delivering Running Services

TECHNOLOGIES

CEMENTING TOOLS & LINERS

- Cement Wiper Plug Assembly
- Cement retainer
- Liners
- Casing Annulus Packers (CAPs)
- FREECAP® Swellable Packers
- Port Collars and Casing Annulus Packers

COILED TUBING & NITROGEN LIFTING

- Coil tubing tool BHA package
- jetting, lifting, acidizing and cementing
- Coil Tubing Reel Skid
- pipe diameters of between 3/4" and 3 1/2"
- drum capacity of up to 25,000-ft Reel
- Up to 40,000 psi Manifold and Swolve
- Coiled Tubing Lift Frame
- Nitrogen Converter

WELL TEST EQUIPMENT

- Three-phase Surface Test Separator
- Well head Gas Desander
- Surface Safety Valve (SSV)
- Choke manifold
- Oil diverter manifold and burner

SLICKLINE SETTING TOOLS

- Slickline/E-line Inflatable/Retrievable Packer System
- Retrievable Plug

PROCUREMENT AND LOGISTICS

Nondera Energy sources and coordinates the delivery of high-quality materials and services to support onshore and offshore operations and projects. Our supply chain management team, which includes sourcing, logistics, and contracting professionals, work to guarantee the highest standards of ethical conduct are maintained in all our operations.

We have developed mature OEM relationships and operate with the most renowned International Supply Chain Companies. We leverage on these alliances and guarantee our clients will have continual access to high performance products with low cost and risk. Our specialized procurement services include the following:

PIPELINE CONSTRUCTION SUPPLIES

We supply and install materials used in the construction of crude and gas pipelines. This includes API L5 pipeline, pressure and temperature gauges, pipeline valves and control valves. All supplies will be customized to the client's requirements and can be supplied in bulk and in a timely manner.

DRILLING EQUIPMENT SUPPLIES

We supply and install well heads, Christmas trees (dry/wet and horizontal/vertical), BOP, Surface Safety Control, OCTG, Drilling Systems and Well Head Control Panels.

TECHNICAL ASSISTANCE AND MANPOWER SERVICES

We have technical experts in all fields who can be outsourced on short and long-term basis to execute projects. We have proven experience in the recruitment, mobilization and management of highly skilled personnel for operations & maintenance, pipeline construction, instrumentation & control in Nigeria's offshore and onshore environment, we are able to handle all aspects of assignment support as required by our clients.
